

Your Business Data Your Right To Privacy Take Back Control

Siccura The Simple, Affordable Software Solution For Total Business Control

Protect business emails, documents, cloud storage, instant messages, local storage, voice and video calls with Siccura.

One Point Of Control

Easily control all business communications and data through the Central Admin system.

Sync Existing Providers

Secure your business email domains, and cloud accounts such as Dropbox, Google Drive, One Drive and more.

Encryption Minus Deployment Headaches

Data is always encrypted at creation, in transit and at rest.

Audit Trail

Get information of when business data was created, sent, received, opened, and shared.

Zero Knowledge

Your business knowledge remains with you. Siccura and third party service providers have no knowledge.

Security Features

Assign employees ability to recall or control life span of business data, and many more.

TAKE CONTROL OF YOUR BUSINESS

Protect your business emails, documents, cloud accounts, instant messages, video and voice calls at an affordable price.

Protect Your Business Data for as little as **Rs.600** per user per month.
